MICHELL'S WHOLESALE PRICE LIST.

Michell's "Far Superior" Many Heart Celery

EXCLUSIVE PRIVATE STOCK

This strain is recommended to all growers of CELERY. It is of fine nutty flavor, produces plenty of heart (which is now the most sought after point), is an excellent keeper over winter, in fact preferred to the well-known Golden Dwarf variety. Grows about the same height as Golden Heart. All who have grown this celery the past two years cannot praise it too highly and will grow this sort exclusively for their winter celery.

Unsolicited Testimonials have been sent us in great numbers, similar to the following:

"MICHELL'S FAR SUPERIOR CELERY is the BEST on my farm."
November 28th 1900. CHAS. ZITTER, Holmesburg, Phila.

Though I have grown celery many years I have never had such a fine crop as this year, grown from your "MICHELL'S FAR SUPERIOR MANY HEART".
Market Gardener, Falls of Schuylkill, Phila. Respectfully yours, D. L. PELTZ.

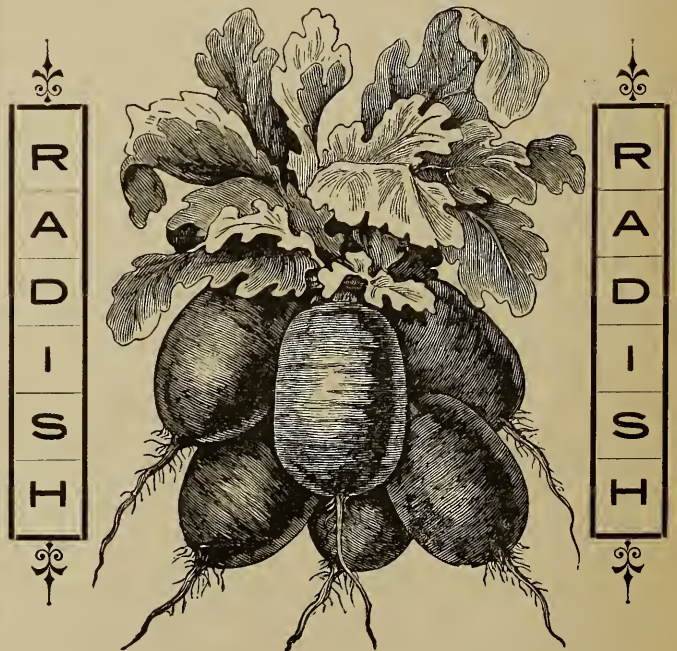

Price 7c. per pkt.; 15c. per ½ oz.; 25c. per oz.; 80c. per ¼ lb.; \$3.00 per lb.

Michell's "All Right" Spring and Summer Lettuce.

Michell's "All Right" Spring and Summer Lettuce.

We cannot recommend this too highly as one of the very best Lettuces yet sent out. It is of the Butter type, very solid, good size head of delicious quality. Desirable as an early variety, but most of all it stands the heat better than any other variety we know of. 7c. per pkt.; per oz. 20c.; 60c. per ¼ lb.; per lb. \$2.00.

Michell's "Dependable Strain" Cardinal Globe Radish.

We have this seed stock GROWN by the INTRODUCER of this valuable and profitable forcing Radish. Our trade on this strain is quite extensive. Growers of Vegetables can always rely upon this stock and avoid disappointment. Do not fail to order this variety. The color is of the richest scarlet, the shape most perfect, semi-globular, of the finest quality. Price 7c. per oz.; per ¼ lb. 20c.; 60c. per lb.; 5 lbs. \$2.75.

SPECIAL NOTICE.

TESTIMONIAL.

BARNESVILLE, PIKE CO., GA.
I want to tell you how perfectly delighted I am with my Pansies that are now in full bloom, from seed I bought of you last fall. In the first place, I think every seed came up; they are now the largest plants and finest blooms I ever saw, the admiration of all my customers.
Very respectfully,

Petunia. Grandiflora, Fringed, choicest mottled and striped. Dwarf bushy, free flowering fancy varieties, per ½ trade pkt., 30c. \$2.50 per ⅓ oz.50	16.00

HENDERSON, MD., May 25, 1900.
Please find enclosed my additional orders for seeds. The seeds I bought of you early this season have come up extra fine. I am certainly much pleased with them. I will give you all my orders in the future. I have tried other firms' seeds, and have lost time and money in sowing them. The Petunia seed I bought of you are now the finest blooms I ever saw.
Yours truly,
E. J. S.

Novelties and Specialties in Flower Seeds

For 1901

New Amaranthus, "Golden Sunrise"

Produces nice pyramidal plants with rather long broad leaves. These are at the lower part of the plant pure dark green, towards the middle however light-yellow, with green points. The heads, as well as all shoots in the centre and the heads of the side-shoots show entirely pure yellow leaves. This Amaranth has a charming appearance, when the foliage is fully developed. One of the best and finest ornamental plants for groups.
Per original pkt., 15c.; 4 pkts. for 50c.

New Ageratum Grandiflorum (Pure White)

The first large flowering pure white, a novelty of undoubted merit and high floricultural value. The plant has a half-dwarf vigorous growth and luxuriant, fresh green foliage, above are the proportionally large, pure white flowers of noble shape. A first-class flower for cutting or for pot culture.
20c. per pkt.; 3 pkts. for 50c.

New Light Blue Ageratum, "Princess V. Louise"

The dwarf, compact habit of growth makes this new variety particularly adapted for edgings and beddings. The plant grows about 3½ inches high and 8 inches in diameter, with a profusion of rich foliage. All experts having had the opportunity of seeing this novelty in my grounds, were unanimously of the opinion, that this Ageratum is a prominent acquisition for bedding purposes and cultivating in pots, for which it cannot be too strongly recommended.
20c. per pkt.; 3 pkts. for 50c.

New Midsummer Aster "Dark Scarlet Triumph."

New Midsummer Aster, "Dark Scarlet Triumph"

Somewhat similar to the Favorite Triumph Aster, the bushy plants producing beautiful, deep scarlet-red flowers of the most perfect incurved shape. It commences to blossom as early as the 20th to the 25th of June, is in full bloom from the middle of July and continues to bear flowers for a very long period. The Midsummer "Triumph" Aster, which comes absolutely true from seed, will certainly prove a gem for every lover of this favorite flower and be specially welcomed by florists, as making a delightful early-blooming pot plant. I regard it as one of my most important introductions among Asters.
20c. per original pkt.; 3 pkts. for 50c.

New Aster "Triumph" Scarlet with White

A handsome new color effect.
15c. per original pkt.; 4 pkts. for 50c.

New White Hyacinth Bean "Daylight"

Produces in great profusion trusses of pure white flowers all Summer. Climber. 10c. per pkt.; 3 pkts., 25c.

New Giant Flowering Aster

Dwarf Hohenzollern Extra Early

A new splendid strain of Dwarf-Asters, of about 6 to 7 inches height. The flowers are very large, perfectly double, the petals are curled and twisted, similar to those of a good Comet Aster. There is no variety of Asters that produces flowers of such perfection and size of such dwarf habit. This novelty will prove to be a first-class variety for growing in pots as well as for beds.
Pure White, 20c. per original pkt.; 3 pkts. for 50c.
Rich Crimson, 20c. " " " 3 " 50c.

Begonia Semperflorens Golden Foliage "Vernon"

This curious hybrid between the Begonia Semperflorens Vernon and the B. Foliis Aurea is more and more cultivated by reason of the distinct contrast made by the golden centre of the leaves with their bronze-red edge.

Always very much admired in our cultures and in the municipal gardens of Lyons and Paris, (France).
20c. per original pkt.; 3 pkts. for 50c.

New Mammoth Flowering Dwarf Heliotrope, "Regal"

The florets of this dwarf New Variety, are enormous, from 8 to 12 inches in diameter. We can fully warrant, that the seed we supply will produce exclusively dwarf, giant umbel-like plants. *Heliotropium regale* is a beautiful plant for pots and for the open ground. It possesses all the fine qualities, which make a Heliotrope valuable: dwarf and compact growth, sweet scented, rich and early blooming.
15c. per original pkt.; 4 pkts. for 50c.

New Mignonette, "Orange Queen"

"Orange Queen" is considered to be the ideal of a Mignonette! The growth is dwarf and sturdy, the leaves are thick. The flower spikes of handsome form, measure more than 2 inches in diameter and are produced bold and free. A group or a bed exclusively covered with this *Reseda* not only inspires unbounded admiration through its beauty, but moreover the delicious fragrance spread out from the flowers, delights everyone. By virtue of all these excellent qualities "Orange Queen" is also the very best for pot culture.
15c. per original pkt.; 4 pkts. for 50c.

New Dwarf Nasturtium "Vesuvius"

This is the "Tom Thumb" variety of the tall climbing Nasturtium "Vesuvius" introduced three years ago. It produces dwarf compact bushes covered with large flowers of a beautiful and brilliant Salmony-pink, an extremely bright color showing off well at a great distance.
15c. per original pkt.; 4 pkts. for 50c.

New Dwarf Compact Phlox, "Bunch of Roses"

A novelty of striking beauty and value to florists. The flowers are of an unusually vivid rose color, each petal having towards the base a darker spot, while the centre of the flower is pure white, as it is in *Phlox grandiflora stellata splendens*. The flowers are large, of perfect form, and appear in abundant profusion, so that "Bunch of Roses" will occupy a prominent place amongst the foremost varieties of Dwarf Compact Phlox.
15c. per original pkt.; 4 pkts. for 50c.

New White Sweet Pea, "Mont Blanc" Extra Early

Mont Blanc has not the rank and often sprawling habit of the other varieties but is of a much neater, more graceful, almost pyramidal growth. The individual flower is very large and of the purest white. A striking feature is that the masses of snow-white flowers are borne well clear of the foliage.

	MONT BLANC, . . .	" 5th . . .	" 13th . . .	" June 22d

Sown under glass on February 20th, Mont Blanc has produced its first flowers on May 1st, and was in full bloom on May 10th. For forcing purposes therefore, for which Sweet Peas are highly recommendable and have already been used with good success, it is evident Mont Blanc will be pre-eminently suitable.
15c. per original pkt.; 4 pkts. for 50c.

New Scarlet Sage, "Drooping Spikes"

This new, large flowering *Salvia* has three times the flowering capacity on each spike of the ordinary *Salvia Splendens*. The flowers are produced in great numbers causing the spikes to droop by their weight. It is one of the most desirable plants for decorative purposes if planted either singly, in groups, or with other plants. The flowers are of the most brilliant, dazzling scarlet, produced in endless profusion and until late in the fall.
30c. per trade pkt.; 75c. per ¼ oz.

New Miniature Verbena "Blood Red" (with White Eye)

Very dwarf, luxuriant grower, produces a plant about 8 inches in diameter. Very free bloomer. Adapted for pot culture, also for bedding.
15c. per original pkt.; 4 pkts. for 50c.

DAHLIAS Twelve Best Varieties for Florists.

CLIFFORD W. BRUTON. Pure canary yellow, of immense size and perfect form. A vigorous grower; free and continuous bloomer on long stems.
A. D. LIVONI. Beautiful soft pink with quilled petals, and full to the center. An early and profuse bloomer.
PENELOPE. White flaked lavender. The most beautiful and chaste; of perfect form; full, high center, and profuse bloomer on long stems.
ELEGANS. Rosy purple, tipped and banded white; quilled petals; beautiful round form; free bloomer on long stems.
NYMPHAEA. The celebrated cut flower variety. Flowers of medium size; always full to the center; resembling the pink water-lily in form. The color is a clear, distinct, light, shrimp pink, tinting lighter toward the center.
CAROL. An exquisite new Dahlia of medium size, full round form, and long stems. Pure white, delicately flushed rose; sometimes almost pure white. A strong grower and free bloomer on long stems.
WHITE SWAN. Pure white, on long stems; medium to large size; full high center, and fine form with reflex petals. Five first prize awards the past year.
WILLIAM AGNEW. Finest red ever introduced; intense, glistening scarlet crimson. Immense size; perfect form, and always a mass of blooms.
WILLIAM PIERCE. Rich golden yellow; of medium size; long stems and a free bloomer.
EMILY. Very large; varies from soft rosy lake to white suffused lake. A beautiful and striking flower on very long stems, with plenty of buds and foliage.
MODEL OF PERFECTION. Fine rosy lavender-pink; extremely early and profuse bloomer on very long stems; flowers of medium size; a perfect model in form greatly appreciated by florists during the past season, when thousands of blooms of this variety were used daily in Philadelphia, New York and Pittsburg.
OAKFIELD. Large size; beautiful regular form, and very long, stiff stems. Color, bright velvety crimson. Blooms from July until frost. Considered the best crimson cut flower variety of the past season.
Prices of all above varieties, 12c. each; \$1.20 per doz., \$8.50 per 100, for strong field grown roots. Should the stock of roots of any of above varieties become exhausted, we can supply strong pot grown plants at 85c per doz., \$6.00 per 100. In addition to above, we can supply any of the leading new or old varieties, and would be pleased to mail all applicants a complete Dahlia Catalogue.
